<u> Activity Night - 16th October 2018</u>

As previously discussed two things are planned for this evening.

Firstly, bring along your photographic gadgets for display to other members.

Secondly the club has a DROP BOX site where **FIVE** images have been placed.

NB - The images will be large and therefore cannot be emailed but must be downloaded. They total 146MB in size.

What we have planned for the **<u>ACTIVITY NIGHT</u>** is for you do download these images.

Your job is to then process one, two or three of these images and bring a copy along to the Activity Night for discussion.

<u>Firstly</u> we would like you to CROP the image so that it is pleasing to the eye, IE Composition.

Other things to consider when you are processing this image are,:-

RULE OF THIRDS, BALANCE, LEADING LINES, SYMMETRY AND PATTERNS, BACKGROUND (if any) etc etc etc.

https://www.dropbox.com/sh/4qgpauozn1pbklw/AAD00i9Jhz9AJeZn7KiY2aPTa?dl=0

Once in the DROPBOX WEB SITE you will see these five images.

1. Click on DOWNLOAD then on DIRECT DOWNLOAD

- 2. Click on SAVE (Which you can change to Save AS)
- 3. Click on OPEN

This pr									

I have chosen to save these files on my desktop. The file will automatically be named "Activity% 20Night%20Images.zip"

Finally open any image and process it as requested, then bring them along on the 16th October.

It will be interesting to see the different methods of processing we do.
