**Editor's Desk**

Now well on the way through the month of June, Winter is now upon us. Some find the colder climes a little harder to bare and it tends to sway the will to get out and take photos. For those willing to brave the cold, sometimes wet or windy weather there's a good number of local and big city events filled with photographic opportunity. So I would like to encourage you all to be brave, get out and about, visit some of the events and test your skills at capturing some of those moody winter scenes. For those who are truly brave enough we'd love to see you all post some results on our Friends of BCC Facebook site, and hopefully encourage others to join in. Happy snapping everyone, cheers.

**ENTRIES CLOSE TUESDAY 13TH JUNE: 11:45PM**

**JULY 2023 BCC PHOTO COMPETITION**

**Set Subject: Autumn**

Autumn is a time of leaf covered paths, morning mists, glistening, dew covered spider webs and crisp frosts. Autumn has a beauty all its own and offers many unique and exciting landscape opportunities. Your photos may capture anything from an autumnal landscape to one small element of seasonal beauty. It may include people, animals & creatures, but they must be only incidental within the scene, not the main focal point.

**TUESDAY 13TH JUNE: 7:30PM**

**Activity Night: Portrait Photography**

**BCC Club Rooms - Bendigo Rowing Club Pavilion, Lake Weeroona VIC**

Members, bring your Camera and a portrait Lens (Generally around 50 - 100mm, see Lens sizing guide below for help), and if you have one a Flash, Tripod. The Committee is currently working on having a number of models for different set-ups there on the night.

If you have any queries, especially in regards to lens sizes to bring please contact Mark on 0439 655 695 and he will talk you through the process.

**Calculating Portrait Lens Sizes**

	Full-frame (35mm)	APS-C (1.6 CF*)	Micro Four Thirds (2 CF*)
<b>Standard</b>	50mm	30mm	25mm
<b>Portrait 01</b>	80mm	55mm	40mm
<b>Portrait 02</b>	100mm	60mm	50mm
<b>Zoom</b>	24 - 105mm	16-55mm +	12-40mm +

*For the sake of convenient comparison, lenses are often referred to by their '35mm equivalent (which is the tradition 35mm Film Format also known as 'Full Frame' in Professional Digital Cameras') focal length; for example a 18-55mm kit lens for APS-C may be described as a 28-90mm equivalent. This means simply that an 18-55mm lens on an APS-C format camera covers the same angle of view as a 28-90mm lens does on a full-frame camera. \*Crop Factor - Lens size x CF = 35mm Equivalent.*

### Anthem by Wu Tsang

#### *St Paul's Cathedral - Flinders St, Melbourne VIC*

Part of RISING Festival, originally commissioned by the Guggenheim in New York, Anthem is a large-scale sound and video collaboration between artist Wu Tsang and folk icon Beverly Glenn-Copeland. Together they tap into an anthemic energy that predates propaganda or nation building. Instead, the work evokes an earlier practice of spirituals—an oral tradition, originally passed from one slave generation to the next, that forms the root of most popular music.

Loudness and uniformity is abandoned as Glenn-Copeland's otherworldly voice reverberates within St Paul Cathedral's landmark gothic architecture. Please see website for further details: <https://rising.melbourne/festival-program/anthem>
