File handling

7. Handling options:

- Smart previews - useful compressed file which is fully editable even if HD not connected
- Management of duplicates - usually don't import
- Second copy if required eg for backup - eg separate hard drive
- Add to Collection if required eg 'Wildflower' collection folder

Make a Quick Collection

For working on a group of images

To temporarily select a group of images to work on, export, or save to a collection

1. Select Keyword
2. Select Images
3. Hit B - image added to Quick Collection (or circle top right of thumbnail)

Eg I want some images of Sulphur Crested cockatoos

3 Added to Q collection

2 Select images, hit 'B' or Circle

1 Select KW

Collection Sets

A collection set groups collections together.

Eg I have collections named: Doha 2017-8, Holiday July16, Japan 2018, June 2017, London/Qatar 2019

I think they should all go into a folder 'Holidays'

Still need help?

The screenshot displays the Adobe Lightroom Classic interface in the Library grid view. The 'File' menu is open, and the 'Import Photos and Video...' option is highlighted with a blue arrow. The interface includes a top menu bar, a left-hand sidebar with the Navigator and Collections panels, and a main grid of photo thumbnails. The right-hand panel shows the Histogram and Keyword Tags sections. The status bar at the bottom indicates 'Smart Collection : Fungi' with 167 photos, 3 selected, and the current photo is '2022-08-11 17-45-16 (A,Radius8,Smoothing4)-Edit.tif'.
