## President's Report

As we reach for the jumpers and coats in the early mornings I have been fascinated by the effects the early morning fog is having around my area. If you're looking for something different to photograph why not brave the elements and try capturing something unique.

As you are aware this month sees the AGM where we will have a number of new faces helping to run the club. This always comes with new ideas, it's always exciting to see what is in store for the next year. Will you be one of the faces?

We have been very fortunate to have a local Architecture photographer Ben Wrigley offer to come and give us an insight on how to get the best shots. He will be starting around 8pm after the AGM. Keeping in mind you may pick up a trick or two for the "Structure" set subject coming soon.

Congratulations to Garry Paterson on taking out first place in the AV competition at VAPS.

Congratulations also to George Greblo for his merit award.

It is interesting to note that these two gentlemen are in charge of our AV group, you couldn't ask for better credentials. Why not come along and see what it's all about.

Anyone who is doing photo books and hasn't purchased your voucher now is the time, just chat to Brian. \$15 will get you a voucher.

Greg has also kindly offered to come in early on Tuesday nights and assist anyone who is having trouble.

As always I'm happy to chat if you have any concerns or questions.

## BCC HISTORY BOOK

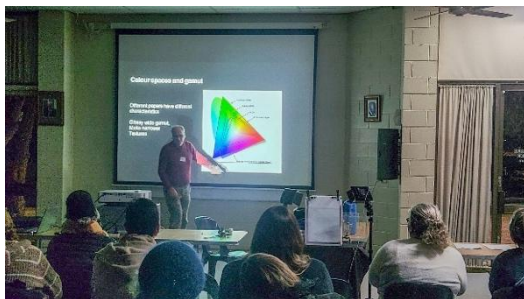

The book **130 years of BCC** is currently in its infant stages.

Research on is well underway way on the very early years with a surprising amount of information readily available.

The club records on hand start in the 1950's, we are hoping to uncover some interesting information.

If any members have any records in their private collection, or stories you would like to share please contact Pauline.

## JUNE 10th ACTIVITY NIGHT

On a well-attended night, including some new members, we listened to Matt Oliver discussing the value of printing your own images and encouraging people to consider entering the club's print competitions. Matt made comment on the numbers of images submitted for judging in the digital competitions that would have been very suited to printing

Peter Murrowood then gave a demonstration of submerged flower photography. Interest was generated because the set-up is simple, most of the equipment used is readily available and inexpensive. A number of people indicated an interest trying something similar for themselves.

Several interesting images were posted on the club Facebook page.

Jason Archer had set up his Skittles demonstration, which intrigued a lot of people. The setup is quite straightforward and this is something that could be done at home using inexpensive materials and equipment. It is a good example of a simple idea that produces interesting imagery, and which could be modified using different objects.

Some interesting images were posted on the club's Facebook page.

Thanks to Matt, Jason and Peter for delivering their talks. Also, a big thanks to those who actively participated in the evening by taking photographs and asking questions.

## JUNE 17th ACTIVITY NIGHT

A well-attended night where we gathered to hear Greg McMillan give advice on making of photobooks. Greg spoke of his own experiences selecting images and various ways to refine the selection of images to produce a cohesive book.

He spoke about choosing the style of photobook you were hoping to put together. Story-telling, the production of a catalogue or making a memory were just some of the options.

Greg talked of using background colours and different borders to alter the perception of an image.

He dedicated some time to speaking of the choice of images for a page, the placement of images on the page and the arrangement of the images.

The talk was perfectly illustrated with a Powerpoint presentation including some of Greg's photographs from his recent trip to Iceland.

All images on this page are courtesy of Felicity Johnson

Thanks to Greg for the evening's presentation

## In My Own Words

Welcome, Cynthia Watkins FAPS, EFIAP

Quick explanation of awards

(FAIP - Fellow Australian Photographic Society  
EFAIP – Excellence International Federation of  
Photographic Art)

I was born in Bendigo in 1933 and lived here all my life. My first camera was a Kinax 1 and my first photo album started in 1949. I have always been interested in nature, and with my husband Rob spent as much time as possible pursuing that interest. I have travelled through many countries including North America, Europe, UK, India, Nepal, Africa, Patagonia, Antarctic and New Zealand. Wherever possible we drove ourselves and had motor homes or tents. This enabled us to spend as much time as possible photographing nature.

I joined the Bendigo Camera Club in 1979 and have served on the committee. In 1980 I had my first acceptance in a National Exhibition at the Royal Melbourne Show and continued entering National and International Exhibitions from then on. Joined APS in 1983 and gained my FAPS in 1997 and EFIAP in 2002.

I had all my camera equipment stolen in 2005 just one week before leaving for the UK, so decided to go into digital with a D70s Nikon using an AF-S Nikkor 18-70mm 1:3.5-4.5 ED lens, I tried to read about digital cameras on the flight to the UK. It was a very big learning curve. I used this camera until turning to Robs D700 after his death in 2022.

My children often complained that every time they wanted to snap a quick shot of me I had a camera in front of my face. My daughter still voiced this same complaint earlier this year while on a trip to Toolangi, even though I was handicapped with two walking poles.
